

San Carlos de Bariloche, December the 16th 2009

Dear Ray:

I'm writing to you as I promised to do. Since I arrived I have been thinking of you, Debbie and Deeni.

I want you to know how much I enjoyed my experience when I was there.

First of all, when Victoria told me about you and your picture I thought to myself that I had to see it to believe, because for me it was something very unusual.

But when I met you I felt that it was something very special and nobody had to convince me to believe.

The first day when I prayed the rosary I felt great devotion and big attraction looking at the picture. Talking and praying with you filled me with peace and happiness.

I keep thinking of you and your people and I hope to be able to go back and visit you all one day to feel the presence so near of our Mother the Holy Virgin Mary.

I wanted you to know that the money you so gave me, helped me to pay for my entrance to the University. In October I studied for my entrance and I passed so now I will start next year in April.

I'm very happy and enjoying this beautiful part of the country where I live with sunny days and nice views.

I go to mass with my grandma and pray every day at home. I miss your beautiful country

very much, is a memory that I have in my heart every day.

Well this is all for now, I send you all my love and I wish you all a very happy Christmas in the company of the Holy Virgin Mary and the Infant Jesus.

ALL my Love
Loel

P.S: I hope you like this photograph that I look over there and sorry for my mistakes in this letter I did the best I could.
