July 25, 2006

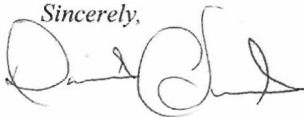

Dear Ray,

It is with sincere gratitude that I write this letter on behalf of myself and the members of the Club for the Uniquely Abled. Your selflessness and generosity has given a child with a disability the opportunity to spend 8 days in Punta Cana, Dominican Republic. This is a trip that would never have occurred for some of these kids if not for your help.

As the club's organizer, I strive to provide these young ladies and gentlemen with experiences which allow them to shed their bodily restrictions if only for the briefest of moments. As you can understand, it takes money to attend these activities and trips. Even with extensive fundraising efforts we fell short of our goals, until you stepped in.

Words cannot express the gratitude we feel for all your efforts. We are blessed to have a friend like you. Our group survives thanks to people like you who put others before yourself. Thank you, Ray Skop, and The Ray of Hope Foundation. You have helped us more than anyone knows. All of the clubs members are current or former A. Harry Moore students and we have benefited from your generosity in the past.

Sincerely,

David P. Howard
